

a. From the Doctor/Lab Side

2.15 How can I make sure the patient's contact details are correct for follow-up calls?

To ensure the doctor or hospital can reach the patient later, you must manually check and update their phone number during registration.

- i. Search for the patient using their **CID** to pull their official info from **Census**.
- ii. Go to the **Mobile No.** field on the registration form.
- iii. Ask the patient for their current, active phone number and type it into the box.
- iv. Double-check the numbers you typed to avoid any mistakes.
- v. Select the **Department, Chamber, and Doctor**.
- vi. Click the **Save** button.

2.16 How do I see if a patient has been marked as a 'Priority' case by the registration desk?

You can check if a patient was given priority by looking at the "Patient Visit Register" report or the "Modify Visit" screen.

- i. Go to the menu and search for **Patient Visit Register**.
- ii. Click the **Show** button to view the list of registered patients.
- iii. Look at the **Patient Category** column. If a priority was selected, it will show as **Geriatrics, Pregnant, or Disabilities** instead of "General".
- iv. If you need to change this, go to **Reception -> Modify Visit**, search for the patient, and click **Re-Register**.
- v. Select the **Department, Chamber, and Doctor**.
- vi. Click the **Save** button.

System

2.17 What is UHID No and how is it different from CID?

- i. **CID** is your national ID from the **Census** office.
- ii. **UHID** is a permanent number the **hospital** gives you after your first visit.

iii. CID is used to find your official identity; UHID is used to find your medical history in the hospital. iv. Select the **Department, Chamber, and Doctor**. v. Click the **Save** button

2.18 What if the patient doesn't have a CID? Which 'Document Type' should I select?

i. Click the **Document Type** dropdown menu. ii. Select an alternative like . iii. If it is a new baby, you can select **MCH**. iv. Select the **Department, Chamber, and Doctor**. v. Click the **Save** button.

2.19 How do I select Patient Category? What options are available?

i. Click the **Patient Category** dropdown (mandatory red-label field). ii. Select the shift you are working in, such as **General Day Hour** or **Off Hour**. iii. Select the **Department, Chamber, and Doctor**. iv. Click the **Save** button.

2.20 How do I enter Present Address and Permanent Address?

i. Select the **Dzongkhag** and **Gewog/Throm** for both sections. ii. To save time, if the addresses are the same, click the checkbox "**Is Address Same as Permanent Address?**". iii. The system will automatically copy the details from one to the other. iv. Select the **Department, Chamber, and Doctor**. v. Click the **Save** button. vi. Click **Close** once the success message appears.

2.21 How do I find a specific Village or Zone if it's not in the dropdown list?

i. First, ensure you have selected the correct **Dzongkhag** and **Gewog/Throm**. ii. Click the **Village/Zone** dropdown to see the options for that area. iii. If it is still missing, contact the system administrator to add the new location. iv. Select the **Department, Chamber, and Doctor**. v. Click the **Save** button.

2.22 Are 'Mobile No' and 'Emergency Contact No' both mandatory?

i. No. Only **Mobile No** is mandatory because it has a **red label**.

- ii. **Emergency Contact No** has a black label, so it is optional, but it is good to fill it if possible.
- iii. Select the **Department, Chamber, and Doctor**.
- iv. Click the **Save** button.

2.23 When should I check the 'Is Teleconsultation' box?

- i. Use this when the patient is **not** at the hospital but is talking to the doctor via phone or video.
- ii. It tells the doctor to call the patient instead of waiting for them in the room.
- iii. Select the **Department, Chamber, and Doctor**.
- iv. Click the **Save** button.

2.24 What is the difference between 'New' and 'Follow-up' in Case Type?

- i. Select **New** if the patient is visiting for a fresh health problem.
- ii. Select **Old/Follow-up** if they are returning for a check-up on a problem they already saw the doctor for.
- iii. Select the **Department, Chamber, and Doctor**.
- iv. Click the **Save** button.

2.25 After I click 'Save,' how do I know it was successful?

- ii. A green box will appear in the top-right corner saying "**Saved Successfully.**"
- iii. A popup window will also appear showing the registration details.
- iv. You must click the **Close** button on that popup to finish

MODULE: FORENSIC

1. How do you access the Forensic module in Epis?

After logging into Epis:

- i. Go to the Dashboard
- ii. Locate the Forensic icon
- iii. Click on the Forensic icon to open the Forensic module.

This module is used to manage deceased patient registration, autopsy reports, forensic forms, and death certificates.
